The NC Composting Council is a volunteer-run organization dedicated to the development, expansion, and promotion of the composting industry based upon sound science, principles of sustainability, and economic viability.

CURRICULUM

- DAY 1:** Composting process, feedstocks and recipe development, compost systems
- DAY 2:** Equipment, safety, site design, environmental protection (odors and stormwater)
- DAY 3:** Composting facility tours and NCDA
- DAY 4:** Compost testing, product quality, compost uses and marketing
- DAY 5:** Trouble-shooting, contingency planning, and analyzing compost piles

Students receive an instruction manual, access to complete presentations, plus supplemental resources.

While the NC Composting Council is a state level organization, we strive to keep the course relevant to national conditions. Our instructors have extensive experience in making, permitting, selling and using compost.
